

CSCB09H Worksheet: Makefiles

Suppose the current working directory contains the following files:

```
cheese  makefile
```

The contents of `makefile` is shown in the box to the right.

In the table below are three commands that are run sequentially (one after the other) from the shell. Complete the table by filling in the output that is printed to standard out and the names of files that are changed or created.

```
dinner: pizza salad

pizza: cheese topping.peppers
    echo making pizza
    cat cheese topping.peppers > pizza

cheese:
    echo gooey cheese > cheese

topping.%:
    echo yummy $$ > $$

salad:
    echo salad is healthy
```

cheese already made, so don't make

Command	Output printed to standard output	Names of files created or changed
make salad	echo salad is healthy salad is healthy	
make pizza	echo yummy topping.peppers > topping.pepper. echo making pizza making pizza cat cheese topping.peppers > pizza	topping.peppers pizza
make dinner	echo salad is healthy salad is healthy	<i>don't remake pizza</i>
